30 May 79

Dear Jerry:

I am looking forward to seeing you at the evening discussion and dinner at CIA Headquarters on Thursday, 14 June. Our discussion will consider the impact of a greater European participation in NATO defense production on the strengthening of the alliance. We must consider the probable economic, political, and military consequences of this to both European and US defense interests. We shall be particularly interested in what contributions you see the Intelligence Community making in support of US policy in this area.

I understand you have agreed to lead off the discussion. After that we shall all have our say. I shall be delighted if our discussion turns up facets of the subject that have not been receiving the attention they deserve.

The plan for our evening is as follows: The company will assemble in my conference room in the CIA Headquarters Building in Langley, 7D64, between 5:30 and 6:00. Refreshments will be served. Our discussion will begin at 6:00 and continue until 7:00 when dinner will be served. After dinner, or about 7:30, we shall resume discussion and continue until 9:00 or so, as the intensity of our interest dictates. The company will be small, with eight outside guests and seven insiders, to facilitate an exchange in which all may participate.

I have asked [redacted] of my Academic Relations Staff, on [redacted] to complete the arrangements. Please call them if you need any further information or assistance.

Yours,

51

Dear Professor Hammond:

You are cordially invited to participate in an evening discussion and dinner at CIA Headquarters on Thursday, 14 June. Our discussion will consider the impact of a greater European participation in NATO defense production on the strengthening of the alliance. We must consider the probable economic, political, and military consequences of this to both European and US defense interests. We shall be particularly interested in what contributions you see the Intelligence Community making in support of US policy in this area.

Our discussion will be led off by Jerry Sullivan, Staff Assistant, Office of the Under Secretary of Defense for Research and Engineering, who has worked in this field for several years. After that we shall all have our say. I shall be delighted if our discussion turns up facets of the subject that have not been receiving the attention they deserve. I am enclosing a paper by Dr. William Perry, Under Secretary of Defense for Research and Engineering, which you might find interesting background reading.

The plan for our evening is as follows: The company will assemble in my conference room in the CIA Headquarters Building in Langley, 7D64, between 5:30 and 6:00. Refreshments will be served. Our discussion will begin at 6:00 and continue until 7:00 when dinner will be served.
